## Rod & Gun Club Held Annual Meeting and Smoker Last Week

Neighboring Clubs Represented by Visitors--Suggestion for Organizing Crows Nest Pass Association of Clubs is Favored by Coleman Club

From a business and social point of view, the annual meeting of the Rod and Gun Club held on Tuesday evening of last week was very successful indeed, and the attendance of members of clubs from Pincher Creek, Balfour and other towns in the Pass showed that there is a spirit of unity and comradeship among devotees of the pictorial art.

The first part of the evening was occupied with the annual report of the president and the secretary. W. J. Burns reviewed the work of the club during the year, and referred to the three competition outings held at Crows Nest Lake, Lundbreck Falls and the North Fork, all of which were favored with ideal weather, and attended by a large number of the club members.

W. H. Purvis, secretary, in his report showed that \$216.00 had been received in fees and from other sources, which had been disbursed in prizes, expenses and sundries, leaving the club with a clean sheet both from a credit and debit standpoint. \$50 to \$60 had been spent in prizes, and balance in expenses of the outings and refreshments.

Election of officers resulted as follows: Hon. President, Wm. A. Found, Director of Fisheries; Hon. Vice-President, W. Rodd, Calgary; President, John Crawford; Vice-Pres., H. T. Hallinan; secretary, John Rushton; executive committee, Messrs. Phillips, Burns, Penman, J. Houghton, Jenkins, A. Short and L. Weir.

In regard to outings for this season, on motion it was left for the executive to arrange dates and places. President Burns announced that a special prize had been donated by Sam's Service Station, to be competed for annually, and if won three years in succession by the one person, to become his property. A small souvenir cup each year would also be presented to the winner to become his.

Mr. Holmes, inspector of fisheries for this district, gave a very interesting address on the work of the Department of Marine and Fisheries in this district, stating that during the year 350,000 small trout fry had been placed in the streams, at a cost of \$45 per thousand. There were approximately 250 miles of streams in the district in which angling was allowed, while in order to allow the fish to propagate all creeks had been declared closed. He asked that members of the Rod and Gun Club see that the rules for the propagation of fish are rigidly observed, as it was only fair that those who had been provided for all, whether it be this year or several years hence. As there were far more licenses now taken out than ten or fifteen years ago, there was a greater need for protection if the sport was to be provided, hence the decision to close all the creeks in the district to allow the young fish to develop and so stock the rivers.

Andrew Dow gave a very interesting talk on some of the peculiarities of the fish in the district, and of a disease he had noticed in some creeks, which he believed was owing to the crowding of too many fish in the one place.

Harry Boulton, forest ranger, complimented the members of the various clubs in the Pass for their observance of the "Save the Forest" rules issued by his department. He stated that some years ago the forest rangers were somewhat nervous of the danger of fires from parties who went fishing and who might be careless of camp fires, but he was pleased to state that so well had they safeguarded the forests that no longer was the fear felt by the rangers from members of the Rod and Gun clubs, who really were self appointed guardians of the forests, for they all realized if there were no forests there would be no fish.

Mr. Morgan of Pincher Creek told of the work of the club there, how they had worked for the establishment of a hatchery in the district, and of travelling over the entire dis-

### PICKED A WINNER--BUT

The only one to win a share of the prize money in the various sweepstakes on the great annual classic English horserace—the Derby—was Tom Holstead, of the Journal office. He took a ticket in the Canadian Legion (Edmonton branch) sweep, and drew the favorite, Fairway, which did not win. As this is not a big sweepstakes like the Calcutta Derby or Duggan's, the prize money is not a great deal, but Mr. Holstead will receive his share for drawing a starter. No other person of all in Coleman who took tickets on Duggan's and the Army & Navy sweeps was fortunate in drawing a prize.

### FAREWELL PARTY

In honor of Mrs. J. H. Boulton, who with her family came from Montreal on July 4th for a visit in Wales, a party was held last Friday evening at the home of Mrs. Glendinning, at which a number of old-time friends were present, and a most enjoyable evening was spent in card playing and community singing. Mrs. Boulton will be away till next spring. She sails on the Cunard liner "Andania" and sailing on the same ship Mrs. J. A. Duggan and daughter, who also plan on remaining in England for several months.

### SUCCESSFUL MUSIC PUPILS

At the recent examinations of the Associated Board, Royal Academy of Music, and Royal College of Music, London, England, the following Coleman pupils of Miss K. McMillin, R.A.M., were successful: Catherine Davidson, Laura Johnstone, Marie Olson, Douglas Bevan, Margaret McDonald, Marion Burrell, Willie Borrows, Leon McDonald, Balfour, Petrovsky, Rudolph Kwansky.

If you have an interesting news item, send it along to The Journal.

Cher Creek also spoke in favor of

An excellent program was given, under the chairmanship of the new president, John Crawford, among those contributing being the president himself and Russell Ewing, two violin duets; E. Hill, in comic songs; Archie McCulloch in Scottish character songs; Peter Smith, tenor solo; Jules Ancelot, tenor; J. Holley and Alf Phillips. E. Machin as pianist officiated in a very capable manner.

## Another Cougar Reported in Vicinity

May Be Mate to One "Killed" on Tuttle Mountain a Few Months Ago

A month or two ago an enterprising newspaper reporter scouted out a story of a cougar having been captured on Tuttle mountain, which later proved to have existed only in the imagination of a gentleman who had spent a night out on the spree and for want of a better excuse told of having spent the night on the mountain in bagging the animal.

Now comes the story of a cougar being in the vicinity, which means working on the rock tunnel about

miles on the western slope of Saskatoon hill. They have been startled at night by seeing a pair of large luminous eyes, which just stare at them and which apparently not even scared by the electric lamps which the miners carry. To ward off attack one man it is stated carries a cowbell. The editor of this family journal took a ramble one evening recently, with a couple of terriers, to rock tunnel, to get a first-hand story from the men who reported having seen the eyes of the feline animal, and on returning listed to him that along the hillsides was suddenly startled in the twilight by seeing what he at first thought was a very large cat, and immediately the thought of the cougar came to mind. Then the thing began to move, and the yelping of the dogs started it moving towards a clump of bushes, where they were lost to sight for a few seconds.

Continued barking of the dogs guided the would-be lion hunting for the spot where they had it cornered, and a piece of rock was aimed at the creature, which was immediately followed by the dog's making a rush at it. But they backed off and writhed in pain the instant they came in contact with it, with quills sticking out of them like the feathers of the war dress of a Red Indian, which immediately without doubt established to which species of the wild animal kingdom it belonged. A busy half hour was spent in pulling porcupine quills and no further attempt was made to try and locate the cougar.

## Attend Board of Trade Meeting To-Night

Every member of the Board is reminded of the annual meeting this evening in the council chamber. Important matters are to be discussed, therefore a full attendance of the members is necessary.

A. M. Morrison W. S. Purvis  
President Secretary

## Douglas Fairbanks Is Attraction This Week

"The Gaucho" a Picture of Lighting Speed and Whimsical Romance at The Palace

Douglas Fairbanks steps into the highlight of his career here, Manager Dow announcing his latest picture "The Gaucho" at the Palace for Friday and Saturday. This picture has created quite a sensation, and "Doug" has produced a picture which gives him full scope for his cavalier-like performance for which he is noted. Several thousand head of Mexican cattle were purchased by Fairbanks for his ranch in Southern California for the production of this picture, and it is stated that in order to give real value he employed men who are expert in roping the Bolo, a rope with weight attached which requires dexterity and long practise to become expert at, and which has been used for centuries among the Mexicans. Doug himself set himself the task of acquiring the art, and his exhibition of his prowess will be seen in "The Gaucho." By all means make it a point to visit the Palace this week-end.

## Charlie Chaplin Than Ever

Undoubtedly "The Circus" is Chaplin's masterpiece and those who saw it at the Palace might probably as they say, "laughed before." Those who had seen him in "A Dog's Life," "The Kid," "The Gold Rush" or any of his comedies agree that he has excelled them all in his latest picture, and Manager Dow is to be commended for showing this picture here.

Chaplin is without a peer in the realms of film comedy. His wistful expression in the most ludicrous situations not only cause tears of laughter, but gives an added edge to Chaplin's particular brand of humor which is the slight touch of vulgarity or objectionable features. It may be fooling, but it is fooling with genuine artistry behind it all, for an artist who can produce millions of smiles in many countries where such films are shown has without question ability of exceptional merit in his chosen field. The first glimpse of those baggy trousers and cracked, oversized boots immediately set a house laughing and the mere atmosphere surrounding Chaplin, without an action on his part, is sufficient to have people giggling and wondering what he is going to do next.

As the comedy artist for all classes and all tastes, Chaplin is the king of them all, and any who may surpass him will certainly have a hard time to attain.

Happiness through industrious employment is one of the fundamentals that can be continually counted on. It is a splendid type of true, constructive thrift.

## Mountain Resort Acquires New Charms

1—Alone in its world is the Banff Springs Hotel. 2—An interior view of the new swimming pool built in the hotel.

Acknowledged by the most discriminating as the finest resort hotel on the American continent the Banff Springs Hotel, built by the Canadian Pacific Railway Company on May 15, inaugurates a new era for visitors to the Rockies. This internationally famous center has been in process of rebuilding during the past two winter seasons, and the results completed, magnificent as to construction and furnishing, and beyond compare as to beauty of setting.

The Banff Springs Hotel is so constructed as to blend in with the surroundings, and the upper and uppermost peaks of the mountain range. Built from the base of Mount

Banff, and finished with Tyndall stone from Manitoba the building itself, complies with all the tenets of dignity and good taste.

The Banff Springs provides accommodation for 1,100 guests and contains 600 bedrooms with baths in addition to a large number of suites of marked beauty and comfort. The layout of the public rooms is unique, and the plans were fully thought out, and these rooms are especially appealing in point of beauty. The main lounge is one of the main features of the hotel, and the main lounge is the most beautiful room in the hotel. The main lounge is the most beautiful room in the hotel, and the view, down the valley of the Bow

River, is alone worth a trip to Banff.

The building of this great hotel or rather the remodeling, has been under way for the past two years, but the construction work has not interfered with the comfort of the guests, and the work has been carried on during the winter months. Enormous wooden shells were erected and heated throughout the building, and the rooms were heated with the same ease, as if at the height of summer. It is interesting to note that the coal used in this system of construction involved a monthly consumption of coal of more than 700 tons.

## Douglas Fairbanks as the

# Gaucho

Friday and Saturday, June 23 and 24

The athlete! The daredevil! The adventurer!  
The idol of all! The International hero!

And now, in addition to these—

A New Fairbanks—Doug, the Lover!

He'll thrill you with his deeds of daring! He'll stagger you by his stunts with the Bolas! He'll amaze you with his wild-girl-of-the-pampas love!

If you liked "Robin Hood" and "The Black Pirate"—you'll rave about "Douglas Fairbanks as The Gaucho!"

"Safety First" on the Highways

The phenomenal growth in the number of motor driven vehicles on the highways of this continent constitutes one of the most amazing developments of modern times. The motor car has, in fact, completely revolutionized modes of living in the space of a very few years, and, equally so, has ushered in an entire new era in the history of transportation.

It is not necessary to even enumerate the many changes which the general use of the motor car has brought about. These changes are patent to everyone. The result has been of course to likewise create entirely new problems which did not confront, and were never dreamed of, by the people of a couple of generations ago.

The motor car has forced governments and municipalities to completely re-organize plans and the road building because what was regarded as an excellent road for horse drawn buggies and wagons is quite obsolete. In these days of motor traffic, the result has been to compel huge expenditures upon all governmental authorities, not only in the construction of a much higher standard of road, but in annual maintenance charges in order that such roads shall be kept up to that high standard, and shall be available for use at all times in all weather.

In large cities, the multiplicity of cars has created congestion and traffic problems of the most serious kind, and the number, power and speed of the vehicles pose only an hourly danger to each other and their occupants but to all pedestrians. Laws governing rates of speed, laws prohibiting of glaring headlights for night driving, and innumerable rules of the road in an effort to regulate this enormous and ever increasing traffic, have been passed. Many of these enactments were experimental and found ineffective. Amendments to laws have followed amendments in rapid succession, yet the toll of accidents and violent death mounts steadily higher and higher.

The fact might as well be faced,—it must be faced,—that only through the practice of the principle of "Safety First" by the people themselves,—all the people,—can the civilization of today really control this modern juggernaut which the inventive genius of this generation has brought into being, and to such a high state of power and velocity.

Legislative enactments and laws are of little value for violation of those laws, will not meet the existing problems. Public sentiment and the public conscience must be aroused against those who habitually and wilfully disregard the laws and regulations passed in the interests of all people. The speed maniac, the man who persists in flashing blinding headlights in the eyes of all other car drivers, the crank who considers it an insult and a reflection upon himself and his car to allow any other car to pass him on the road, the crazy fool who not only disregards all safety precautions for himself but who is callously indifferent to the fate of others, and the common "roadhog" who ignores everybody's rights and selfishly arrogates whatever he desires to himself,—all these enemies to the welfare, enjoyment, rights, and even lives of others, must become taboo throughout the land and be ostracized by his fellow citizens in the community.

Every driver is his own controller, and the safe way to the same way. Common sense will prevent accidents. Apply it. There is not only the law but an etiquette of the road. Observe it. Protect person and property—your own and the other fellow's.

Two controllable factors enter into accident prevention on the streets and highways,—your car; yourself. Always observe, among others, the following simple rules for safety:

1. Keep your car right; see that the brakes, steering gear and headlights are in perfect working order.
2. Keep your eye on the road and your hands on the wheel.
3. In passing traffic, look ahead.
4. If a "road-hog" tries to pass you—let him.
5. Entering main streets and highways—stop and listen.
6. Don't rush through nor "load" in heavy traffic.
7. Signal before you slow down, stop, or change your course.
8. Look before you back up.
9. Obey the "Stop" signal.
10. Watch your "Step"—Don't "step" on the gas, the train will win.

## CONTINUES BEST SELLER

Over Ten Million Copies Of Bible Sold Last Year

The Bible continued to be the world's best selling book in 1927, establishing a new record of 10,034,797 copies as the annual report of the American Bible Society.

Copies were published last year in 166 different languages and dialects, and were comparable in the Luba-Lulua language of the 2,500,000 Bantu natives of the Belgian Congo was issued by the Society.

There are 150 convicts serving life terms in prisons of Canada.

## GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking Vegetable Compound for nerves and stomach troubles when I was 16. I must say I felt different after the first dose. I have been told by many physicians in the last months that I look twenty-five, although I am nearly 40, and have had seven children. I have been on the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McLean, 18 Laurier Ave., Toronto, Ontario.

## Norse Celebration in Winnipeg

Great Interest Being Taken In Norse Union To Be Held Shortly

Of its kind, the Norse celebration to be held in Winnipeg this year, is expected to be the largest gathering of the summer. Their kith and kin to the number of twenty-five thousand from the central western States will come, and an equal number from Western Canada.

Men prominent in Norse circles, descendants of pioneers on both sides of the International line, are displaying a keen active interest in the union. Among the prominent speakers will be Governors Christianson, of Minnesota, and Sorensen, of North Dakota. Far off Norway is sending a delegation to participate in the Norwegian Sangerfest, and official delegates from that country will comprise representatives of the government, church and various civic bodies. The week of July 5-11 will mark the occasion for the festival.

In connection with this festival will be the annual convention of the Norwegian Danish Press, of America. This will bring to Winnipeg some fifty newspaper and magazine editors, prominent in the association.

## University Of Alberta

New Laboratory and Greenhouse To Be Erected This Year

Increased acreage is being acquired in the rear of the department of field crops at the University of Alberta by the erection of a new laboratory and greenhouse for the study of plant pathology and plant breeding. This additional space will make possible the carrying out of a co-operative attack by the university, the federal department of agriculture, and the national research council on the problem of root-rot diseases.

Dr. R. C. Moore, formerly of the University of Minnesota, on his return from Europe last fall, joined the staff.

The department of field crops and will lead the plant pathological work at the university. Dr. G. B. Sanford, of the federal division of botany, will

have charge of the Dominion laboratory of plant pathology, and Dr. O. S. Aamodt, of the University of Minnesota, has been appointed to take

charge of the work in cereals. Dr. Aamodt will spend the summer in Europe, mainly at Cambridge, England, and will take up his work at the university in the fall.

J. R. Fryer will continue in charge of forest crop breeding. Disease resistance is one of the main qualities being sought in the plant breeding work.

## Newest Town In Northland

Cranberry Portage, Manitoba, Incorporated Point On Flin Flon Railway

Cranberry Portage, which sprang into being almost overnight, is the third country's newest town. It is situated on the Flin Flon railway, which I am told to be one of the most important points on the Flin Flon railway.

A month ago there was nothing there except railway construction offices and warehouses. Today it has a population of 100, with two hotels and a number of other thriving business establishments. A board of trade is being organized and soon there will be a mayor and regular municipal organization.

Within a mile of the town work is going forward on a number of mining claims.

## Trained Fire Fighters

For British Columbia

Experts Will Combat Fire Menace In Salmon Arm Section

When the fire menace again sweeps through the forests of the Salmon Arm section of British Columbia this summer, it will be combated by men trained for just that emergency. The fire-fighters will be done by experts and not by novices.

The reason for this is that the men who have been employed in fire-fighting this season have literally gone to school again and have studied "the most approved methods of reducing the hazard and beating the flames when they once get under way. Specimen subjects were taken up each day and included the study and demonstration of approved methods of disposal of slashings."

Pretty Casper: "I think I need a holiday for the sake of my health. My husband is beginning to fade."

Manager: "What has put that idea into your head?"

Pretty Casper: "The men are beginning to count their change."

The gross area of the United States is 3,026,789 miles.

Druggist Gave Her Very Good Advice

Miss Ruth Horowitz, Bronx, N.Y., "having been troubled with indigestion, came by consultation for several months, and suggested a purely vegetable laxative pill."

I can safely say that since I last took the pill, I have not had another attack of indigestion, and I feel like myself again and can eat most anything without fear of an attack."

CARTER'S LITTLE LIVER PILLS

All druggists—25c and 75c per dozen.

W. N. U. 1732

## Victim Of His Invention

Radium Paint Inventor Is Slowly Dying

The New York Times says that Dr. S. A. Von Sooschocky, inventor of the radium paint which is said to have doomed five New Jersey women to a slow death, is a victim of his own invention. The paper says that, although the doctor was reticent to talk about himself, marks of the insidious disease are plainly evident. His front teeth are gone and his fingers are up to the second knuckle; his black, the result of radium necrosis, with radium paint.

Dr. Von Sooschocky brought to this country with him several years ago the formula for the radium paint. He became an official of the U.S. Radium Corporation in whose plant the five New Jersey women are said to have acquired the radium poison.

They recently made a settlement with the company for \$10,000 each, a life-time annuity of \$1,000 each and insurance for their relatives when they die.

## Recipes For This Week

(By Betty Barclay)

### ECONOMICAL PUDDING

1 quart water  
1 teaspoon salt  
1 cup peeled apricots  
1 teaspoon vanilla  
4 tablespoons butter.  
1½ cups brown sugar

Cook tapioca in water until transparent. Add other ingredients. Bake one-half hour.

### LEMON DROP COOKIES

1-3/4 cup butter.  
½ cup sugar.  
1 egg.  
¼ teaspoon soda.  
2 tablespoons hot water.  
½ tablespoon lemon juice.  
Grated rind 1 lemon.  
¾ cup flour.

Cream butter and sugar gradually, add eggs, beaten until thick and light, soda dissolved in hot water, lemon juice, grated lemon rind, and flour. Mix well, drop from tip of spoon onto buttered baking sheet, and bake in a quick oven.

To make crisp cookies, use one and one-half cups flour when mixing; chill thoroughly, roll very thin, sprinkle slightly with sugar, cut out, and bake.

20,000 passengers have been carried by commercial airplane company, without a single accident.

Much of the experience a man gets comes too late to benefit him.

## PRAYER BOOK REVISION AGAIN MEETS DEFEAT

London.—By a vote of 266 to 220 the House of Commons again rejected the revised prayer book of the Church of England.

The vote, coming after two days' close debate on which the attention of the nation had been focused, recorded a majority almost identical with that in the previous rejection last December, when the vote was 247 to 205.

The revised prayer book after rejection last December was altered by the bishops, and after the approval by the church assembly, was submitted to Parliament.

Again in an appeal issued by the Archbishop of Canterbury, and the Archbishop of York, supporters of the measure were told that the new responsibility laid upon the bishops is to "pray and plead" a plea made "for quietness for a little patience and for abstention from any angry or unkindly words."

The speech of Sir Wm. Joynson-Hicks, home secretary, was the highlight of the efforts of the opponents of the revision. The minister, a staunch evangelical, who led the opposition last December, declared the House was being asked to "revoke its own decision" and inferred that the church was resisting Parliament's decision. He asserted the book was essential to the church as the one rejected last December.

Lord Hugh Cecil and Prentier Baldwin were outstanding among the speakers in favor of the revision.

The premier stated that difficulties must follow any decision, but he believed those which would face the church if the measure was rejected would be infinitely the more formidable.

Mr. Baldwin said he felt an adverse verdict would weaken the hand of all those in authority in the church for a considerable time to come and give immense impetus to the very forces which those who were opposed to the new book desired to curb. It would also, he said, hinder the religious progress of the country.

The House of Commons were a demeanaor of gravity as it entered upon the second and final day of the debate.

The aged Archbishop of Canterbury, the Archbishops of York and Liverpool, the Bishop of London and Southwark were prominent among the prelates who looked on from the Peers' Gallery, while the ordinary galleries were again crowded.

## Conference a Success

### First Annual "Farm Women's Week"

Heid At Saskatoon

Saskatoon.—Close to 150 delegates attended the first annual "Farm Women's Week," at the University of Saskatchewan. The conference was arranged by the United Farmers of Canada, Saskatchewan section, in co-operation with the University of Saskatchewan, was a most successful venture, and is the first of its kind held in the province and, so far as is known, in Canada. As much of the business of the program concerned only the United Farmers' Organization, some of the sessions were closed to the press and public.

### Mrs. Emmeline

### Pankhurst Dead

**Noted Suffragette Leader Passes Away in London**

London.—Mrs. Pankhurst, noted suffragette leader, died here Thursday morning at the age of 69.

Mrs. Pankhurst, in later years, took up the cudgels against Communism, while her daughter Sylvia goes on, more energetically than ever, advocating the teachings of Lenin.

Miss Christabel, the eldest of the two girls, is tremendously interested in religion.

### Danish Aviators Killed

Copenhagen.—Three Danish aviators were killed after leaving from a naval seaplane which exploded while they were flying over Copenhagen. The airmen, a pilot and two cadets, leaped from the plane but their parachutes failed to unfold and they fell on the roofs of houses, being killed outright. Their machine crashed in a densely populated area and injured a boy.

A statue of William Shakespeare, cut in glass and over 24 feet high, has been made for a London Park.

W. N. U. 1738

## Appeal Was Rejected

Privy Council Gives Decision On Alberta Coal Case

London.—The decision of the Privy Council judicial committee regarding Alberta's appeal in the coal mining tax case has the effect of depriving that province of large revenues which it had hoped to collect on the production from coal mines. The Privy Council upholds the decision of the Supreme Court of Canada that Alberta mine owners tax act of 1923 which placed a tax on every ton of coal mined in Alberta is ultra vires of the province.

The mine owners' tax case was launched against the Canadian Collieries, Limited. The judgment of the Privy Council states that it is undisputed that though the tax was called a tax on gross revenue, such gross revenue is really an aggregate of the sums received from the sales of coal and is indistinguishable from the sale of a tax on sum received from the sale of coal.

The judicial committee agreed with the Supreme Court that the tax was not a direct tax. Some attempt had been made in the argument to support the tax on the ground that it was analogous to income tax, but it was pointed out that there were marked distinctions between a tax on gross revenue and a tax on income which for taxation purposes means gains and profits. There may be considerable gross revenue but no income as income tax in the accepted sense.

The appeal was therefore dismissed.

## U.S. Farmers Complain

Say Canadian Competition Is Dangerous Factor In Agrarian Development

Seattle.—Canadian competition in grain growing has become a "dangerous factor" in the agrarian development of Washington, J. Carl Laney, state secretary of the farm bureau, testified at a hearing of the Commerce Commission farm hearing. Agricultural representatives appeared before the commission recently, urging the necessity of lower export grain rates.

Supported by voluminous exhibits, Laney gave a comprehensive comparison of farming conditions between the grain districts of Western Canada and Eastern Washington. He asserted that aid given farmers by Canadian railways and the government to wheat-growing growers from Washington to Canada.

With cheap land, low taxes, low grain rates and fertilizer, Alberta ranchers can not only raise grain at a cost of several dollars an acre lower than those of Washington, Laney said, but they can reach both their eastern and western markets at a much less cost.

Laney gave the average cost to the Canadian farmer including everything until the grain was plated at elevated rates of \$1.50 an acre, whereas in the American side of the border line it was \$2.50.

He added that with such a wide spread in their favor the Canadian grain growers were rapidly driving Eastern Washington wheat from the export market.

## Searching For Bodies Of Kamloops Victims

Eight Of Twenty-Two Have Already Been Recovered

Port Arthur, Ont.—A tug and launch have left here for Le Royale to conduct a further search for bodies from the steamer Kamloops, which was lost off the Island last December.

The expedition has been organized by Captain H. J. Bryan of Kingston, brother of Captain Bryan of the Kamloops, and is financed by him and relatives of other missing ones among the crew of the Kamloops. It is proposed to patrol inland as well as along the shore line. Eight bodies of the 22 on the boat have already been recovered.

### Beatty On Trip To England

Quebec.—E. W. Beatty, K.C., president of the Canadian Pacific Railway, and Sir Herbert Holt, president of the Royal Bank of Canada, have sailed for England. While on the other side Mr. Beatty will let a contract for a new steamship of the Empire class, to be used on the Pacific Coast routes. It is tentatively arranged that Mr. Beatty will visit Stanley Baldwin, British premier.

### India Ready To Rencence War

Washington.—The Government of India has accepted the invitation of Secretary Kellogg to participate in an original signature in the proposed multi-lateral treaty for the remuneration of war.

## Ice Delays Seaplanes

Machines Ready For Survey Of Conditions At Fort Churchill

Ottawa.—Ice on the small lakes in the vicinity of Fort Churchill is holding up the dispatch of the two Canadian Air Force seaplanes which are in readiness to fly to the Hudson's Bay post, the scene of surveying.

It was stated at the Department of National Defence that the two planes are at present at Comptant Lake, North of The Pas, and are awaiting favorable conditions before proceeding to their destination. The duty of their pilots will be similar to that which has occupied the Hudson's Straits air patrol last year, to observe the movement of ice out of Comptant Lake, Oliver Lake and Lake Manitoba, the shores of which Canada's Northern port will be constructed. This year a wireless station will be built at Fort Churchill, the workmen equipment and machinery for which will be taken there some time next month.

## HARVEST HELP FROM BRITAIN IS SUGGESTION MADE

London.—"The Canadian harvest will soon be due. Why not an arrangement between the Dominion and Home Governments and all the parties most likely to help for 10,000 Britons to be provided with work during the coming harvest in Canada?"

William Lunn, M.P., of Rothwell, suggested this suggestion in the Yorkshire Evening Post. He is an chairman of the Overseas Settlement Committee, and still a member of that body.

"In July last year," he proceeds to say, "an arrangement was almost arrived at for 10,000 to go to Canada with whom 5,000 would be miners. The conditions were to give cheap passage, guarantee employment at not less than 4 to 5 dollars a day, and to assist in bringing those back who did not find permanent employment."

"One lady promised to pay the expenses for 150 South Wales miners, and others were prepared to help with smaller numbers. Just when everything was in order for the project being carried out, it unfortunately fell through."

"No doubt three out of four would settle permanently in Canada. Those who seriously desired to return could be helped at cost of passage home," he said.

These 7,000 or 8,000 who make their homes in Canada would become nominees. Then they would be likely to nominate their wives, sweethearts, sisters, brothers, and in many cases, their fathers and mothers.

That is the most satisfactory way of populating the Dominions. Here is the pebble which, if thrown into the pond, will begin the circle which is likely to enlarge and enlarge to enormous dimensions.

Cannot something be done, done soon? asks Mr. Lunn, in conclusion.

## HE DID IT IN ONE

Robin Bell-Irving, of Powell River, B.C., the first amateur to make hole in one on the Jasper Park Lodge Golf Course. He accomplished it at the fifteenth, which has a name that speaks for itself—The Bad Baby. Incidentally, he is the first player, amateur or professional, to do the Bad Baby in one.—Canadian National Railways Photograph.

## PRESIDENT OF THE LO.D.E.

Alberta and Saskatchewan Students Win Purse Technical Studies

Quebec.—Chosen as the outstanding and valuable member of the Canadian Society of Technical Agriculturists, Prof. H. M. Nagant, professor of geology and chemistry at the Oka Agricultural College, of the University of Montreal, was unanimously awarded the fellowship prize at the closing session of the agriculturists here.

The \$600 scholarship prizes, gift of the Egg Company, were awarded to R. H. McLeod, of Alberta, to study soil bacteriology, and C. G. Russell, of Saskatchewan, to study plant pathology at Toronto University.

It was officially decided that the convention of the agriculturists next year will be held at Winnipeg.

## Cattle Shipped To England

Over Three Hundred Head Sent From Calgary To Europe

Montreal.—The first shipment of cattle on the hoof to leave Canada for over a year arrived in Montreal at the East End stockyards over the lines of the Canadian Pacific Railway, on its way to England. Over 300 head of cattle were in the train of 17 cars, averaging 18 animals to a car, with a stockman aboard for the care of every 25 cattle that made the trip direct from Calgary to Montreal.

The shipment is being accompanied by Francis Burdett of Etobicoke and Arthur Hillard, veterinary surgeon, who supervises the health of the stock from Calgary to Birkenhead, together with a staff of stockmen under Archie McGinness, foreman.

Substantial gains were made in livestock, poultry products, dairy products, fodders, honey, hops and wool, while decreases were noted in fruit, vegetables and grains.

Imports of agricultural products from other provinces in Canada were valued at \$16,648,703, against \$17,437,350 in 1926, while imports from foreign points increased from \$3,622,011 to \$3,593,084. Exports of agricultural products for the year amounted to \$10,625,735, an increase over the previous year of \$1,617,095, or 19.23 per cent.

Alberta Pool Making Interest Payments

Farmers Are Receiving Amount Due On Elevator Deduction

Calgary.—The Alberta Wheat Pool is issuing cheques covering the payment of six per cent interest due on the elevator deduction from the crops of 1924 and 1925. It was stated at the offices of the pool.

The total payment amounts to \$87,101.03. In instances where the interest does not total the sum of one dollar, no payment is being made.

The six per cent interest is paid on a total of \$1,345,388 which was the total deduction for elevator purchases from the 1924 and 1925 crops.

Successful Candidate

Toronto.—Miss E. Silver Dowding, lecturer in botany at the University of Alberta is the successful candidate for the annual scholarship awarded by the Canadian Federation of University Women's Clubs.

## BOARD REFUSES APPLICATION OF LIVESTOCK MEN

Ottawa.—The application of the United Grain Growers Limited, of Winnipeg, Man., and other agrarian and livestock organizations in the prairies for compensation of Canadian Pacific Railway tariff rates, June 23, 1927, on livestock shipped from Western Canada to Pacific coast points in the U.S., has been rejected by the Board of Railway Commissioners.

This is the judgment of the board which is issued, together with a minority report, by Hon. Frank Oliver. Commissioner S. J. McLean and C. Lawrence expressed the opinion following a lengthy examination that the application should fail, while Commissioner Oliver's view is that the railway tariff should be cancelled.

The application involved the question whether, under special circumstances set out, rates on double deck movements of hogs to specified points in the Pacific coast states of the U.S. from Alberta should be computed on the minimum of 24,000 pounds, or whether there should, in addition to current rates, be a charge on the actual weight in excess of this minimum.

## Plan Speaking Tours

Premier King and Hon. R. B. Bennett Will Visit West

Ottawa.—The Prince Albert national speaking tour of the Prince Albert in Western Canada are not yet final though it is known that he will leave Ottawa on July 28. Mr. King will likely address meetings in Winnipeg and Brandon, and possibly some other place in Manitoba.

On August 10, the Prince Minister will open the Prince Albert National Park and between that date and August 16, he will visit several places in his Prince Albert constituency. Mr. King will then return direct to Ottawa. He will probably be accompanied by a member of his cabinet.

Hon. R. B. Bennett has mapped out an intensive speaking tour that will carry him to both Eastern and Western Canada during the summer months.

After visiting Renfrew, Ont., on June 21, he will leave for La Prairie, Que., where he will speak on June 23. From Monday, June 25, to the following Thursday he will visit a number of points in Quebec's Eastern townships.

The Conservative leader goes West in July to be in Calgary in time for the stampede, and is scheduled to return to Oshawa, Ont., for a speaking engagement there July 23. A tour of the Maritimes is planned for later in the summer.

## Forke Will Tour West

Minister of Immigration To Visit Western Canada Shortly

Ottawa.—Hon. Robert Forke, Minister of Immigration, will visit Western Canada this summer on immigration matters.

Mr. Forke's trip will cover the Pacific Coast. The itinerary of Mr. Forke has not yet been arranged, but the likelihood is that he will leave Ottawa within the next three or four weeks, visiting all the major centres of population. A definite announcement of his program will be available shortly.

Mr. Forke probably will seek provincial co-operation in immigration work as recommended in the report of the parliamentary immigration inquiry presented during the recent session of parliament.

## Presented With Diplomas

Quebec.—Dean H. Barton of Macdonald College, Ste. Anne de Bellevue, Que.; Dean A. Howes, of Alberta University, and L. P. Eay, of Quebec, were presented with diplomas in agriculture at a graduation ceremony, by Laval University, at a reception tendered the delegates attending the eighth convention of the Canadian Society of Technical Agriculturists, by the University. The presentations were made by Mgr. Amédée Gosselin, rector of the college.

Death Of W. B. Fifton

Brockville, Ont.—In the presence of members of the family, Wm. B. Fifton, second son of Sir Clifford Fifton, died at his residence, Assiniboine Lodge, 15 miles west of Brockville. Death was directly traceable to a severe case of cerebral hemorrhage three years ago, there having been a recurrence of the illness at his home here Sunday night.

**Tax on Coal Industry**

By a decision of the Privy Council, the coal tax imposed by the province of Alberta on the gross revenue of coal companies has been declared ultra vires of the powers of the government. Some hundreds of thousands of dollars have been paid, which of course means that the consumer has had to bear his share as well as the company.

But Premier Brownlee is not going to give up this source of taxation. Despite the decision he states that the same amount of revenue will be aimed at as was established for the original act, and it is his intention to bring in a new act that will meet the situation and that will come safely within the powers of the government. He states that the new tax will likely be a straight property tax on the value of the properties concerned and not a tax on the tonnage produced.

There is no doubt that the coal industry can ill afford to bear this taxation, unless it is passed on to the consumer, which is quite likely to be the case as is done with the sales tax. In the face of very keen competition from the United States, at a time when Alberta coal mine owners are endeavoring to displace American coal from Ontario, and the railway companies have virtually been ordered to carry the coal east at cost, it certainly does not appear that the provincial government is sincere in its manifestations that it is interested in the widening of the markets for Alberta coal, when it states that it is going to collect a tax even if the present method of collection is not within its powers.

That there is just ground for opposition on the part of the companies is pointed out in an editorial in the Calgary Herald on the subject. In a recent issue it states:

"Probably it will be just as well if no further attempt is made to set a tax charge against Alberta coal. With the strenuous efforts that have been, and are being, made to put Alberta coal into eastern markets—an effort in which railways, mine operators and governments are combining—there might well be question of the government's good faith and disinterestedness if out of the increased production thus created it were to take a taxation toll for itself."

**Healthful Camping**

It is the merry month of June. The roads have dried out. The trees are green and the wild flowers are a riot of color. The car has been given its spring clean and over-haul and is humming along hitting on all cylinders; the net result being that the human family has become infected by the holiday fever and plans are going ahead for vacations here, there, and everywhere. Just a few words of warning to those lucky people who are going camping. In the home hygienic, sanitary and public health measures are regularly carried out, both by the individual and by the health department. On the motor trip the situation changes. The entire responsibility of health protection is assumed by the tourist, therefore the traveller should be familiar with every precautionary measure.

The tourist should learn to distinguish the right kind of place from which to buy food. Food protected from dust, dirt and flies and prepared by clean hands is health insurance for the camper. He should see he gets it. He should not drink water from brooks, lakes or springs, which are known to be free from infection. It is easy to boil water over the camp fire. It is the only safe procedure when there is no certainty of purity. Clear sparkling water is not necessarily safe.

Milk is a fine food, but is very easily contaminated. Raw milk should be boiled before using. The milk problem is one reason why babies and small children should not be members of a camping party. They are better off at home. Destroy all garbage, bury deep or burn, and so keep away flies, those filthy carriers of disease. For those who would sleep out, comfortable sleeping equipment should include mosquito netting, otherwise, well, no rest, bad temper, spoilt trip and perhaps malarial. Prevention is better than cure and the sensible tourist will safeguard himself and his family against such diseases as typhoid, dysentery and small pox by correct immunization before starting. Better be safe than sorry.

"Lay My Head Beneath a Rose!" From the times innumerable that one hears this song, there must be an awful lot of people looking for a long, long rest. You hear it whee out for a car ride, you hear it on the gramophone, you hear of it having been sung up at Corbin the same day a fellow was murdered, you hear it at church socials, smokers, in fact everywhere where two or three gather together, whether it be for a pot of beer or for afternoon tea. And then your best friend sends you a copy through the mail, thinking you would like to learn to play it. Little did the man who wrote the song imagine that he was going to inflict such suffering on an innocent public.

**Sunday at the United Church**

The Sacrament of The Lord's Supper will be observed at the morning service. This is the regular summer communion and members and friends are asked to be present. Preparatory service will be held in the church on Friday evening at 7.30. All are welcome to this gathering.

The evening service will be in the hands of Rev. R. C. Taylor of Hillcrest. Mr. Taylor is known as a preacher of merit and is doing a successful work in Hillcrest. The public should be sure to attend this service.

**Announcement**

In order to facilitate publication, news and copy for advts. must be in as early as possible in the week. There is always a tendency for people to put it off till the day of publication before they get their copy ready.

## Alberta School Week

An "Alberta School Week" is planned to arouse the public to greater appreciation of the work and organization of schools and to stimulate a spirit of co-operation by public, parents and school work in the matter of education, according to a recent decision of the Educational Committee of the Alberta Teachers' Alliance at a recent meeting.

Captain and Mrs. Hind Leaving

The above officers of the Salvation Army, who for nearly a year have been here, will be transferred next week to another charge. Sunday services will be at 11 a.m., company meeting at 2:30 p.m. and Salvation meeting at 7:30 p.m.

On Monday at a special meeting Staff Capt. J. Merritt, commander for Alberta, will speak, as well as representative speakers from other denominations.

In leaving Coleman Captain and Mrs. Hind express their appreciation for the kindness and help extended them during their stay here.

### RIPPLING RHYMES

By Walt Mason  
Hand v. Machine

Typewritten letters are a boon, and I am hoping there'll be soon a law imposing fines on men who write their letters with a pen. The letter written by machine, with purple ribbon, black or green, requires no civil engineer to read and make its meaning clear. One glance at the printed sheet and gets its burden all complete; no time is wasted in trying to guess what the letter is about; there's no disturbance of the gall deciphering some beastly scrawl. There still exist old-fashioned men who do their writing with a pen. They seem to think it's not polite with other implements to write; they take much pride in splashing ink, erasing all the things they think, and they are nearly always gents who cannot write worth twenty cents. They work such havoc in each line that Greeley would take in his sign. How often have I wept and sworn, and bowed by stricken head to mourn, while struggling with some document, having written by a worthy gent whose sight was poor, whose trembling hand made scrawls no man could understand. My time is worth two bucks a day, and when I throw some hours away deciphering some awful scrawl, I'm in a pleasant state indeed. I bite large pieces from my hat and throw the inkstand at the can and use such language that my niece considers calling the police. It isn't fair to waste the time of men who need to earn a dime that they may pay the income tax and keep some raiment on their backs. It isn't fair or wise to send such hieroglyphics to a friend when you might own a nice machine on the installment plan, I ween.

## Tennis Tournament

Preparations are under way for the third annual tournament of the C.N.P.L.T.A., which will be held in Blairmore on June 30, July 1 and 2. The local tennis players are getting into shape for the fray and it is expected there will be a strong representation from Coleman in both the ladies' and men's events. Coleman players last year won their way through to the final or semi finals in all of the events.

Entry blanks may be obtained from the secretary of the club, A. E. Graham, or from F. H. Graham

## WORLD HAPPENINGS BRIEFLY TOLD

The Government of India has accepted the invitation of Secretary Kellogg to participate as an original signatory in the proposed multilateral treaty for the renunciation of war.

Marshal Chang Two-Lin, war lord of Manchuria, who recently was driven from Peking, has died in Mukden according to unconfirmed Japanese war office advices received at Tokyo.

Miss Eleanor Lodge, a sister of Sir Oliver Lodge, noted scientist, is the first woman to receive the degree of doctor of literature from the Oxford University. She is 55 years of age and a well known historian.

Kroum D. Dokout, chief inspector of hygiene and labor in the ministry of commerce, industry and labor, Bulgaria, is visiting Canada studying industrial hygiene and accident prevention.

President Gaston Doumergue, when visiting Rethma, the most bombarded city of the Great War, took occasion to approve Secretary Kellogg's anti-war pact. He said that France will associate herself with all efforts to put an end to warfare.

Viscount Byng, former Governor-General of Canada, has taken his seat in the House of Lords after 20 months delay through the dispute concerning the payments of fees incidental to his elevation to the peerage.

Captains Charles Kingsford-Smith and Charles Ulm, members of the Southern Cross, have been offered huge sums to appear in theatres, but they have declined to commercialize the flight, thus following Lindbergh's example.

An air mail service between Montreal and Albany, N.Y., will probably be established in the near future, according to an announcement made in the House of Commons by Hon. P. J. Venot, Postmaster-General. He thought that the contract would be let within a short time.

Captain Darbos, who flew the first French airplane the war front which was equipped with a machine gun and equipped experiments the adoption of machine guns in war aviation was in a large measure due, was killed in a crash near Oran in Africa.

### Records Are Remarkable

Several generations of two or three Japanese families have kept records of dates when bamboo bloomed, and it is found that certain sorts flowered once in 120 years simultaneously with others which flower once in sixty years.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when a simple remedy as Holloway's Corn Remover is available.

Each automobile worker produces more than three times as much now as he did before the war.

For rheumatism use Minard's Liniment.

A promise is but a small outlay from which large returns are expected.

### Athletes.

For sprained ligaments, bound muscles, kicks and bruises — use Minard's.

### Consumption Of Meat In Canada

Figures Go To Prove That Pork Is The Favorite Meat

Pork is the favorite meat of Canadians, according to a recent compilation on the meat and poultry consumption of the people of the Dominion made by the Canadian Government Bureau of Statistics. The daily consumption of meat and poultry in Canada is about 1.8 pounds per day for every man, woman, and child. This means an annual consumption of 775,150,815 pounds of pork; 654,943,623 pounds of beef; 191,717,517 pounds of mutton and lamb; \$3,335,591 pounds fowl; and chickens; 14,138,558 pounds turkey; 4,856,890 pounds duck; and 9,863,960 pounds geese. In addition there is an annual per capita consumption of 28.67 dozen eggs of a total of 282,405,692 dozen. Canadian annual purchases of meat is \$113,000,000 annually. The per capita annual purchase of meats is \$1.43 pounds of pork; 68.75 pounds of beef; 9.69 pounds of poultry; and 6.11 pounds mutton and lamb. This represents half a heavy hog, a small hind quarter of beef, two chickens and a lot of lamb for every member of every household in Canada, an expenditure at average prices of the different commodities of \$43.08 per person per year. For the whole of Canada this would amount to approximately \$10,173,710 exclusive of the \$113,000,000 egg bill.

### Winnipeg Newspaper Union

**Outstanding Sophistication**

An interesting type with below front and deep V-opening completed with vestes. The lower edge of the waistband is finished with a decorative braid. The skirt at front shows some nautical fullness, the back is straight in one piece and the set-in sleeves are adjustable. Style No. 916 is outstanding in the two pieces. It is a bold crepe satin, one of the new supple wovens, two tones of georgette crepes, two tones of organdy crepes and two tones of silk crepes. Size: 34, 36, 38, 40, 42 and 44 inches bust. Sizes: 34, 36, 38, 40, 42 and 44 yards 36-inch, or 3 yards 64-inch material.  $\frac{1}{2}$  yard 20-inch white and  $\frac{1}{4}$  yard 20-inch colored material. Price varies with pattern.

Many styles of smart apparel may be found in our Fashion Book. Our designs originate in Paris, the heart of the style, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

### CHAPTER XXVI.—Continued

Mrs. Kalinaki looked very smart in her black satin tea-gown and gold embroidery that her Isadore had brought from the store. She took her neighbour into her confidence. "No matter what I could say, mind you! " she said. "I have the idea of sending dollars for it once, and let go if for fifteen. She wanted things but I told her it was the worst thing to sell. Who was wearing tea-gowns now?—they was out of date like leg o' mutton sleeves. And all the time Isy was thinking of me. I had a red cashmere one with Wattie pleats when our Rachel was comin', and his papa says little Isaae will be served as good, even if it did cost fifteen dollars and could be sold for thirty easy. He's that good a man, and spares no expense in reason."

Mrs. Corbett brought the tea from the kitchen and filled the cups. "You and me are lucky women," she said, "to have two good men we have. All the time we're here, we're poor, divin', though? I don't know who to think of Hein'man, though she sticks up for him and is afraid he'd be lost in a storm or drowned in a river. Poor girl—it's a shame to see her havin' to work in a Chink's, but what could the poor do? Not one of these dainty ladies would have her, they all had some reason."

"If we were just a Hebrew girl now," said Mrs. Kalinaki, "one could go to the Hebrew Association of Women and they would find a place for her. We would not have any nice white girls of ours workin' in a Chink's shop and havin' to take lippy talk from every Harry, Tom, Dicken, and maybe worse. Mrs. Sternberg and Mrs. Swartz are grand on that, and

good girls they have found for our people."

Mrs. Corbett paused, with her saucer half way to her mouth. "Look at that now! Ain't the Jews wonderful to think of things? We've got great societies, too, and I never once took notice of them. Sure they're all up to their eyes in pneumonia and many-tailed bandages now, and socks for the soldiers, but they're grand men, too. When I came here first I used to take care of the Club room at the 'Y' and I used to see them there millin' round, very civil spoken women, too, and tryin' to make the world better, and God knows it needs it! I'll go to Mrs. Bell, the old lady, and I'm glad you spoke of this, Mrs. Kalinaki. Maybe we can get a decent place yet for Hein'man, though if she takes a baby away I don't know what I'll do with Rose and Dan."

Mrs. Corbett went that evening, after Hein'man had gone to work, leaving the baby to the watchful care of Rose, who sat in No. 18 to do her lessons.

Mrs. Bell was at home, and would speak of Hein'man's case at the meeting of the Lloyd George Chapter the next day.

A week later a new place was found for Hein'man. Mrs. Bell said it was an ideal place, and while ten dollars a month was very little, still it was more than she could have the privilege of keeping her baby, and Mrs. Herriott would be glad to have her. Mrs. Herriott was young and inexperienced, and found her baby a great care. Hein'man could mind the two babies and Mrs. Herriott would do the work.

Old Sam was sorry to part with Hein'man, and gave her a feather fan. "You come back some day—old Sam be glad. Good girl—cally tray-teach make chop suey—come back! You come see my girl too, and have chop suey!"

Hein'man paid her rent at the "North Star," and had three dollars left.

The Herriots' home was a six-room house on 12th Street, two blocks from the "Y" on 12th Street. It was a little house, housetoof, square, with but little light in the roof, and high pillars in front, much too high for the height of the house, giving one the sensation as Hein'man thought of seeing a covey getting up hind legs first. Rose and Danny conducted her to the place, Rose carrying the baby and Danny leading Hein'man with the heavy valise.

"I hope you don't like her," said Rose, "and then you'll come back. I'll be wet when you get little Bill as well as her kid will wake up within. Well, anyway, Hein'man, you can always come back, and well manage some way."

Hein'man kissed her two good friends at the back door, but Rose refused to go until she saw if the lady were at home.

"Maybe she's changed her mind," she said speaking from her experience with ladies—"or has got help or somethin' happened. You can't depend on these women in the West End. Ain't that right Dan? They don't pay their debts, either, very good. They always say 'Come back again.' Dan collected the rent, and he knows. They don't remember how much they have, and when they're stuck for another excuse they peep out of one of the windows to see who it is, and won't let you in."

Mrs. Herriott was in, and had not engaged anyone else, so she and the escort had to go home alone, which they did regretfully.

Hein'man found the house in a state of siege. Confusion reigned everywhere. The invader slept in a baby carriage which filled the tiny parlor of the living-room. And when he got all noiseless were muffled. The grandmother, who had been conscripted to serve as paddled about in her bed room slippers. The telephone bell was stuffed with paper. No one was ad-

The British custom of serving 4-o'clock tea in business offices is fast in taking on in Canada. Many Canadian, as well as British-born, executives now order Red Rose Tea for their office staffs, because it is the same quality as the finest English teas. Sold by all grocers, in bright, clean aluminum cans.

mittted to the house, not even the baker.

There was a little room off the kitchen where Hein'man and Bill were to sleep. It had just room enough to take in the rubber-wheeled carriage. "Oh, I will be so glad to have someone to take this old baby off my hands," said Mrs. Herriott frankly. "I don't know what to do for my baby. I don't mean to let him go off this one. Isn't a baby awful? I hope yours is good. Anyway, I can get out now, and, believe me, I am going."

Mrs. Herriott, having shaken off her family cares, resumed her place in her little world. She curled and played bridge, and went to the malline with her friends and came home only when everything was over. She was a pretty, plump-faced girl of twenty-three who had the misfortune to be the only child of adoring parents. "Maudie is not fond of work," her mother often said; "but never mind about that. She's been keeping her baby since she was born. Young Robert Herriott, who had married her with pomp and circumstance at the First Church believed the same thing.

Maudie had been in a terrible rage about the coming of the baby, but her mother fondly believed she would be attached to it when it came. "They make their own place, babies do," she said. "Maudie will be so fond of it she wouldn't take a million dollars for it when she has had it two days." But Maudie's friends agreed among themselves that they would hate to offer it to her.

The baby was now two months old, and the great fountain of mother love which the baby granulated had begun to overflow, either non-existent or untouched. "She'll take it to when it gets a little older," she would say. "You'll see, when it gets cute Maudie will take to it."

Hein'man knew that cats sometimes refuse their young, but she did not know that it could be true of human beings.

In a week the seige seemed to be lifted. Long lines of washing had been fluttering on the clothes red; closets were tidy; floors polished, the "old" baby put on a regular way of living. Mrs. Herriott had won the Ladies' Points competition at the rink, and her friend had told her she was looking younger.

One night, when the Herriots were going for a drive, Mr. Herriott wanted to take Hein'man, and her baby. "That girl hasn't been out of the house since she came," he said. "Ask her to come, Maudie."

Maudie had a well manicured finger on a neatly varnished lip. "Hush, Bob," she said. "Don't spoil her, leave well enough alone. Come on we'll take the Bunnings—they have no kids to want to come. Hurry, Bob!"

(To Be Continued.)

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is due to worms. These sap the strength of infants so that they are unable to maintain battle against the encumbrance of worms. This preparation gives promise of health and keeps it.

May Abandon Geneva

Rumors Are Revived That League

May Move To Another Capital

Rumors that the League of Nations may be transferred to some other European capital were renewed recently at Geneva, where it was learned that the league had not decided in which city it was deemed necessary for the proposed league palace.

It appears that the English woman who is proprietor of the villa where league delegates have been housed for years is adamant in her refusal to sell the property. This has given a new impetus to those advocating taking the league out of Geneva and installing it in Vienna or elsewhere.

Canada Comes Second

According to a report from New Zealand, that country claims a world leadership in tea capita possession of dairy cattle with 83.1 per hundred of population. Canada, according to the table, ranks second with 40.4 per hundred, followed by the Irish Free State with 40.0 per hundred. Australia has 39.9 cows per hundred of population.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-taste. Once a tasteless fact, you will never deal with excess acid in the crude ways. Go to your doctor now—why this method is superior.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

A reliable antiseptic—Minard's.

### Canada Grants To Class "B" Fairs

An Federal Aid Withdrawn, Support Should Come From Provinces

Some discussion took place in the House at Ottawa, and criticism offered over the cancellation of federal grants, under the department, to class "B" fairs. Hon. W. R. Motherwell, minister of agriculture, explained that the grants were discontinued in "B" fairs during the war as a war measure. This aid had been discontinued, as they were not entitled to federal aid. They should get aid from the provinces. During the past few years, Mr. Motherwell said, he had noticed several provincial governments had increased their grants to class "B" fairs in anticipation of cancellation of aid by the federal government.

"Class "A" fairs were receiving federal aid, and while only \$50,000 was granted as federal aid before the war, the amount now totalled \$285,000 annually.

A large number of the members took part in the discussion, several of them expressing their opinion that the smaller fairs did as much, if not more, for agriculture generally than the big ones.

Alfred Speakman (U.F.A., Red Deer) believed in the encouragement of educational fairs, with good live stock and agricultural exhibits, in place of these fairs specializing in side shows.

M. McLean (Liberal, Melfort) spoke in favor of aid to the smaller fairs in the agricultural districts.

### Another Reform In China

Editor Of Honan Province Forbids Binding Of Women's Feet

Women of Honan are to totter no longer on tiny bound feet. Marshal Feng Yuhsiang, the revolutionary ruler of the province, has not only prohibited binding the feet of young girls, but also has ordered that the feet of their mothers and grandmothers must be loosened. The bound, inflexible abomination of "my feet," which children for generations have considered as among woman's greatest charms, but which appear as cruel deformities to most orientals, is to be accomplished by persuasion if possible, but by direct official action if necessary. A propaganda against footbinding is being carried out in women's meetings, in newspapers and wall posters.

To enforce his edict Marshal Feng has established a Bureau of the Liberation of the Women of the World, whose agents move from house to house and are found to be gendarmes. Agents are promised a bounty.

Each case, of course, presents its own difficulties. In some instances, but in the main, your dentist, or the orthodontist who specializes in this branch of dentistry, will correct the deformity by pulling the toes apart. Agents are promised a bounty of \$2.50 for every 100 sets of discarded foot wrappings they turn in, and one month of the campaign brought in more than 25,000 sets.

For Frost Bites and Chilblains—Chilblains come from exposure to the cold and frost in the seasons of winter. In the treatment of either an excellent preparation of Dr. Thomas' Eclectic Oil, as it contains the liniment, will remove the pain. Bands of household in which the toes are wrapped in warm cloths and the feet are exposed to the heat of the case in hand.

But you wonder, perhaps, how a tooth can be crooked, teeth all crooked, teeth all straight, and thinking of his future, and are not content to let this condition persist.

Irregular teeth are in a sense, a deformity, and often make one's smile less attractive and indeed, in some instances may also lead to general systemic disturbances.

Now, can anything be done by way of correction? There is a simple deal, especially if treatment is commenced while the child is still young.

Each case, of course, presents its own difficulties. In some instances, but in the main, your dentist, or the orthodontist who specializes in this branch of dentistry, will correct the deformity by pulling the teeth to make room and straighten the severity of the case in hand.

But you wonder, perhaps, how a tooth can be crooked, when it is really erupting, as it is in tens and tens and hundreds and thousands, and seemingly unyielding bone.

However, it is simply a matter of making use of a natural physiological process, by which the body is reabsorbed and broken down in advance of a properly applied and persistent force, thus permitting the tooth to move and straighten through its supporting bone structure.

Then is tooth straightening a painful process?

No, in the least, where rapid movement is not attempted.

And when should it be commenced?

Young operators like to take the case in hand while the child still has the temporary set, and generally at about the eighth year, when success is almost certain.

Then, of course, where treatment is delayed, the case becomes progressively more difficult of correction because the bone structure becomes more and more fixed. When early adult life is reached, "tooth straightening" is not advisable except in the very simple cases.

Alberta Telephones

An increase of 154 exchange stations and 93 rural stations, or a total of 247 new stations in operation during the month of April, 1928, is being reported by the Alberta Department of Telephones.

Two French engineers have invented an aerial torpedo for transporting letters and packages at a speed of nearly 300 miles an hour.

"Do you think that Doris is fitted for the battle of life?"

"Well, she ought to be, she's been in four engagements already."

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Exterminator.

Carol: Does your husband gamble?

Jo: Not in an objectionable way. He nearly always wins.

Travelling at the rate of two miles a minute it would take an aeroplane nearly 80 years to reach Mars.

Minard's Liniment for insect bites.

Hygiene Council and Published  
By The Saskatchewan Dental  
Society

"He that hath a pure heart shall receive the blessing from the Lord."

—Psalm xvi, 4, 5.

ToOTH STRAIGHTENING

Your child has "crooked" teeth, and you wish to have them straightened? Are you afraid of the perfect blessing; Yea to earn your world's song?

Speak in Thy still, small voice, Till broken love's made whole, And saddened hearts rejoice.

How does Jesus make men pure? How does His love cleanse us? And we are made whole, And we are made straight.

How does He make that which is crooked straight? And we are made whole, And we are made straight.

How does He make that which is weak strong? And we are made whole, And we are made straight.

How does He make that which is blind see? And we are made whole, And we are made straight.

How does He make that which is lame walk? And we are made whole, And we are made straight.

How does He make that which is deaf hear? And we are made whole, And we are made straight.

How does He make that which is dumb speak? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

How does He make that which is dead live? And we are made whole, And we are made straight.

The Calgary Stampede An other introduction to the position of King of the West, the Kings of the Saddle and Rope; competing for Canadian and North American championships in pictures, running, racing and other regular pageants and contests incidental to their country.

Here gather the red men of the hills, the Indians, the cowboys and cowgirls from Rio Grande to the Peace River, the plowmen and the veterans of the original Royal Northwest Mounted Police who

contributed so much to the progress of the West to-day. All with skill and brains when the cowboys climb the bucking bronchos for the title of the world's bucking champion.

Thousands will see the old covered wagon race against the fleet bareback Indian riders, during the mock battle.

The exhibition stampede will be held July 9th to the 14th, and be opened by His Excellency

### Personal and Local

P. Gilbert, of Calgary, has been appointed manager of the Coleman Hardware Co. store.

Miss Mary Blue of Oakland, Cal was here on Monday and spent a few hours visiting Mr. and Mrs. R. Powell.

H. Snowden has been a patient in the hospital during the past two weeks, and is making steady progress following an operation.

The annual meeting of the Coleman Board of Trade will be held this evening at 8 p.m. in the council chambers.

Mrs. Barnes is spending the next month or two visiting various points in Manitoba, during the time her son is away at camp.

A meeting of the Junior W.A. of St. Albans' church will be held Friday at 3:30. Thanks are extended to all who sent donations to the pantry sale.

A couple of local merchants last week received consignments of stationery from Toronto. Great inducement for the local press to buy for home patronage. (7) —Blairmore Enterprise

Captain R. F. Barnes left on Sunday evening for Sarcee Camp, where various branches of the permanent and non-permanent militia are in training.

Registrations for the C.G.I.T. Camp at Lee Lake are coming in. These should be arranged for as soon as possible. The camp must serve the four towns in the Pass and the number taken is limited. Camp begins July 3rd.

Mayor Burns is attending the annual convention of municipalities being held this week in Edmonton, and will place before the convention resolutions from Coleman town council concerning road maintenance, and provision for indigent sick persons.

The opera house is now available for dances, having been leased by A. E. Knowles, who is thoroughly renovating the interior. The re-opening of this hall will fill a much needed want, as the halls at present available for dances are not large enough to accommodate a number sufficient to make a dance profitable.

FOR SALE: 4-roomed house with garage, also household goods, in West Coleman. For further particulars apply to T. Merriman.

A whist drive and dance will be held in the Knights of Pythias hall on Saturday night, June 23, and every Saturday night thereafter till further notice. Mason's orchestra. Good prizes. Admission, 50¢ to whist drive and dance, or 25¢ to dance only.

"Bud" Clarke, "Buck" Eyesacker, and John McCulloch took a flier on Sunday to Kimberley, where they visited old Coleman friends in the persons of Jim Pearson and family and Bill Donaldson, a former tailor there. They arrived home in a perfect state of equilibrium at 1:30 a.m. Monday, after a stormy passage the latter part of the journey.

### 65,000 Rainbow Trout Fingerlings This Week

A telegram from the Dominion Fish Hatchery at Grand Falls advised Coleman Rod and Gun Club on Monday asking if 65,000 fingerlings could be distributed here. The telegram replied in the affirmative, and on Tuesday the consignment arrived and were distributed by Chief Houghton and John Rushton in McMillivray Creek, Good's Creek, Parish's Creek, Crows Nest Lake and River.

### Rod & Gun Club Dates

At the meeting of the executive of the Rod and Gun Club held on Monday evening, the following dates were set for the summer outings: July 2, Lundbreck Falls, leaving Coleman at 10 a.m. July 22, South Fork, leaving at 10 a.m. and August 19, North Fork, leaving Coleman at 6 a.m. Fishing terminates on each occasion at 3:30 p.m. Anyone wishing to take out membership may do so on paying fee of 50¢ at The Journal office.

### ANOTHER COUGAR REPORTED

The president of the Rod and Gun Club suggests that a hunt be organized.

### DIAMONDS

A good diamond has never been a poor investment; it becomes more valuable with the passing years. For weddings, birthdays, anniversaries, betrothals and other occasions the gift should be a worthy one. Genuine, useful and beautiful. It should be something that will carry a lasting, if not a life-long remembrance. Diamonds will do this. Any selection made here will be new and modish in pattern, dependable in quality and true to our representation.
